

Highest of all in Learning Power.—U. S. Gov't Report, Aug. 17, 1889.

Reckling Powder

ABSOLUTELY PURE

For sale in Fort Worth by EGGLESTON & EGGLESTON

SOLD BY

G. Y. SMITH & CO.

If you wish to buy pillows by the pound, we have them. If by the pair of hundred pairs, we have them, and all by the celebrated

COLD
BLAST
PROCESS.

Some have called it the Magic Process. Certain it is there are no others quite so luxurious; at the same time none can be sold less.

We can give information regarding pillow cotton, pillow linen, widths required for each sized pillow, etc. If we are not intelligent on this subject it is not because of lack of experience in this line. Remember the Cold Blast brand.

AROUND THE CITY.

The Day Was Hot and News Was Scarce.

WHAT ILLINOIS FARMERS ASK.

They Want a Texas Exhibit at an Alliance Fair—Two Weddings Yesterday—The High Tea—Around the Courts. Some Other Matters.

Toward the Coast.

This morning Bishop Key and wife will leave for Sunset, where they will pass week or two vacationing. From Sunset they go to Colorado and Utah, and then to California, Oregon and Washington. Mr. and Mrs. Key confidently expect a very pleasant outing during the summer months, and will no doubt be greatly benefited both physically and mentally by the tour.

Marriage Licenses.

Yesterday was a busy day with County Clerk King, is so far as the marriage license department is concerned, three couples yesterday procuring the death warrants. These six couples with but a single thought were James Miller and Miss Louise Smith; W. A. Thompson and Miss Emma Woods; G. H. Lange and Miss Maybelle Sanders.

Johnson Bound Over.

Henry Johnson, the gentleman of color who was arrested on the charge of stealing two pistols from A. J. Anderson's store yesterday afternoon, the evidence tending to show the theft was of goods of over \$20 in value, the justice held him to the grand jury in the sum of \$200, in default of which he went to jail. The alleged theft occurred on Wednesday.

A Juvenile Reception.

There was a juvenile reception by little Phillip Willing at her mother's home, corner Grove and Fifth street, yesterday afternoon from 4 to 7 o'clock, the occasion being the fourth birthday anniversary of the little one. Some forty youngsters were present, and a number of refreshments were given. The party was a thoroughly enjoyable time was the result.

The Harboree To-Day.

The Cumberland Presbyterian church people are confidently anticipating a day of rare pleasure at the Harboree at Como pavilion in Riverside today. The guests of honor have been made for the affair, and it is intended it shall be one of those old-fashioned jovial affairs where all can thoroughly enjoy themselves. It is expected that some of the most interesting features will be a feature of the day.

Around the Courthouse.

There was absolutely nothing of interest in and around the courthouse yesterday, nothing being done in either of the courts, no new suits filed or anything to vary the monotony. In the county court the case of M. Schlossberg vs. J. C. Carpenter, action for debt in the sum of \$100, was tried at the instance of adjournment. This is a case from Wise county, brought here on a change of venue. Jas. Swann was appointed superintendent of the county convicts and assigned his duties on the 15th of the present month.

Third Street in It.

There is no reason to believe that Third street is putting forth special and particular efforts to boom Fort Worth by achievement in the population in a given time. Mr. and Mrs. H. M. Price had a fine girl put on an appearance on Tuesday morning and yesterday twin boys were reported as having arrived at the residence of Mr. and Mrs. Lott, next door to them. Mr. and Mrs. Waller, residents of the same house, are rejoicing over the advent of a fine girl yesterday.

They Want an Exhibit.

Secretary Clark of the Chamber of Commerce is in receipt of a letter from the Farmers' Alliance and Industrial Union of the South, asking for a fair to be held at a great fair at Virginia, Ill., a few miles south of Springfield, during the week ending August 1. They request, and are very desirous of securing an exhibit of Texas products and other side-track facilities, to pay all expenses of handling and protecting the exhibit, provided one is furnished them. This is undoubtedly a fine opportunity to showcase Texas where it will do the most good.

The High Tea.

The handsome spacious parlors of St. Andrew's rectory were thronged last night by the ladies of the parish and their friends, the occasion being the weekly high tea. Mrs. DeForest, assisted by the Ladies' guild, was unremitting in efforts to render the evening very enjoyable to all present, and as Rev. DeForest jokingly remarked, a great number of people took advantage of this occasion to return the pastoral calls he had made. The entertainment was supposed to be over by 10 o'clock last evening, but it was considerably later when the gathering dispersed. These high teas are rather a new feature with the Ladies of the parish, and they have leaped into great popularity.

A Candy Pulling.

A very enjoyable candy pulling was given by Messrs. Sullie Brown and Webb Mulker at the residence of Mr. W. E. Williams on South Side on Wednesday night. Those present were Misses Ellie Ryan, Nannie McDaniel, Willie Duff, Emma Brown, Sallie Miller, Marian Roger, Mary Duff, Blanche Woods, Julia Rintelman, Myrtle Alford, Minnie Williams and Judge S. B. Thomas of Wichita Falls. Messrs. J. J. McDaniel, W. P. Parry, Howard Rogers, Pickett Mulker, Saul McDaniel, W. E. Williams, Webb Mulker, Sullie Brown, Jerome Reger, Willie Woods and Ethelma Cox.

Archer's New Courthouse.

A. N. Dawson, of the Dawson architectural company, returned yesterday from Archer, Tex. Mr. Dawson had submitted plans for the new courthouse which the citizens of Archer county propose erecting in the near future, and his designs meeting the approval of the committee were unanimously accepted by it. The building is to be a \$100,000 stone structure, and the style of architecture, the gothic, will make an exceptionally handsome edifice. Upon the awarding of the contract the citizens of Archer tendered an elegant banquet and reception to Mr. Dawson and the contractor, which was largely attended.

The Gray-Sellers Wedding.

At 8 o'clock yesterday morning the marriage of W. P. Gray of Houston to Miss Rosa Sellers of this city was celebrated at the First Baptist church. Rev. Mr. Preston of Lexington, Va., an intimate friend of the groom, officiating, having come from Alabama to officiate. There were no bridesmaids. R. E. Goode, B. C. Camp, Tom Brown and F. O. Barron acted as attendants. The bride entered the church, leaning on the arm of her brother, R. H. Sellers, and advanced up the middle aisle. At the same time the groom, accompanied by his friend, Capt. Scurry of Houston, entered from one side and met the bride at the altar, where the ceremony was performed. The groom is a well-known business man of Houston, and the bride one of Fort Worth's most popular ladies. Mr. and Mrs. Gray will make an extended wedding tour.

Wedded After Difficulties.

On Thursday at 10:30 a. m., June 11, at the home of Mr. and Mrs. T. A. Wilkinson, of Emerald, Crockett county, Texas, to Miss Amy Knox of De Vol, S. D. This pleasant union was the consummation of a faithful courtship, originating in Dakota. Mr.

Ketchpaw, the bridegroom, parted from his betrothed over two years ago to find a home in the sunny South. He chose Emerald. Miss Knox, the bride, is an accomplished teacher and a thoroughly cultured lady. She has held many positions of public trust in her Northern home, and being well versed in literary matters and possessed of a kind and amiable disposition, as well as an excellent conversationalist, she will add very much to the social circle of Emerald. Their kind host and hostess, Mr. and Mrs. T. A. Wilkinson, prepared a sumptuous repast, and at 2 o'clock p. m. the happy pair, once more united, took the Fort Worth and Rio Grande train for their future home.

Case of Negligent Homicide.
FAIRFIELD, FREESTONE COUNTY, TEX., June 8.—On Saturday F. Champion filed complaint charging Buck Jamison with criminally assaulting his wife, charging him with intimidating her with a pistol, thereby accomplishing his purpose. An examination of the case was had Saturday evening before E. S. H. Lindsey, but the proof went to show that she made a confession from her that Jamison without a long and disagreeable omnibus transfer, Ticket No. 10, was sold July 4th to 8th, inclusive, good for return until September 30, 1901.

For further information, write or call on any agent of the company.

W. H. WINFIELD,
General Passenger Agent, Texarkana, Tex.

Fault of the Town Cow.
Correspondence of the Gazette.

BRADY, TEX., June 8.—Mr. T. H. Marsden, while driving his place of business to his home on the out edge of town, one wheel of his sulky ran against a town cow lying in the street taking her ease, and precipitated him to the ground, badly fracturing one leg in two places between the ankle and knee.

None but ten years' old brand of Nelson whisky served on the Mansion bar.

For every dollar received by the Gazette in subscription to its weekly edition, an extra copy for one year will be sent to any address desired, outside the state, or two copies for one year will be sent outside the state.

World's Fair Commissioner.
Special to the Gazette.

JACKSONVILLE, TEX., June 11.—J. K. Russell was today appointed by the commissioners' court commissioner to the World's fair to represent Jack county.

OIL MILL WANTED.

About Terrell is a Great Cotton Country, and Railroads Run to all Quarters of the Globe—Other Advantages.

TERRELL, TEX., June 11.—Terrell wants an oil mill. Why? Because, we want it, as the boy said when he wanted a biscuit more than was his allowance. In addition to the above unanswerable reason we can add as additional evidence that Terrell is the center of a large cotton market. Besides this, this is the junction of the Texas and Pacific and Texas Central railways, one running east and west, the other north and south, and giving Terrell more than double the territory naturally tributary to Terrell by local trade. This added to the local business would give sufficient to run an oil mill of good size. Several years ago an oil mill was operated in Terrell with remarkable success, but since then the population has largely increased, as has also the cotton production of this section. These reasons we think common sense and practical. If the former mill, which cost about \$50,000, was a success, would not a mill of the same capacity be more successful now? Any man with a constant desire and shoe string to pull would see the reasonableness of the proposition without stopping the time. Let someone who has confidence in the business and money and experience to back his judgment come right away and get the whistle up before the cotton crop gets ready for the market.

Then the street car line is now needed. It is likely the electric light company will put on cars after a while, but if they do not propose to do so, let someone else walk and get the right of way for a reasonable consideration to the city, go to work and get the wheels rolling. This enterprise is needed in Terrell. A little more in the city and the asylum.

We need cotton gin capacity sufficient to gin every bale of cotton within handling distance of Terrell. We have several gins, but they need to be a combination of capacity and gin capacity, and be ready for any quantity of cotton on short notice. The man or men who know what we want ought to get here and right things. It may be that our gin men combine and do things needed, otherwise somebody should do something, and that right early.

The coal find, if only as represented, is a wonder for Texas, and not alone for Terrell. Several persons have been corresponding in regard to putting down a prospecting shaft, that will enable them to learn the true status of things. There is need at this supreme moment capital and experience sufficient to prospect for the coal. The facts, and nothing more, are needed. This quality and quantity of coal, 2000 feet under the surface, will make it a regular mint for the coal miner, and especially for those who may first get to the coal. A great many inquiries are made, and especially by persons living in coal regions, or by those who are interested in coal mining enterprises. It is believed that no superior quality of coal than this is found in the United States, and the idea of a coal of this quality of coal being ten or twelve feet thick, in a section as dry as powder, is a mammoth thing to think about, much more to develop.

The people generally are waiting for experts to take hold of the matter. Quite a number will probably be on the ground during the next thirty days, when something definite will be determined upon. There is a strong desire to get at the facts in regard to this coal, and only the facts. It is not desired to create spurious excitement and then fall flat, but the facts as they exist are wanted. It is now believed a sample of coal will be obtained, either by sinking a regular coal shaft or putting down an experiment well—probably more than one, and see exactly what there is in it. Whoever first strikes the coal will have the inside track on all after comers. Several samples of the coal dust as taken from the well were sent to coal mine investors last week. Enquiries addressed to the city secretary on this or other matters will be promptly answered.

CASH IN ADVANCE.

To insure publication in the Gazette, all advertisements placed at this office must be accompanied by the cash except in cases where contracts exist.

Circulators' Notice.
All who are indebted to us for the Daily Gazette, who do not pay for same by the 10th of the month, will be cut off from the subscription list, without further notice.
